

KZ SERIES

— This photo illustrates warning signs and other identification we can add to the cart.

↑ This photo shows the handles that can be used for guiding the cart.

— This photo demonstrates our distinct braking system.

KZ Series

This cart was designed specifically to maximize the shipping ability over larger distances. The cart shown here can hold 99 flats when used with 9 shelves. This cart design uses the maximum amount of trailer space available. This particular cart will not collapse.
